## EXPERIENCE

March 2019 –  
Present

### **The Home Depot Canada – North York, ON - *Replenishment Analyst***

- Analyzed and adjusted key forecasting parameters for 20,000+ articles in support of Downtown Toronto's unique small-format stores. Reduced inventory by \$16,000 while maintaining Supply Chain's business objectives.
- Helped lead a team of 15+ on-shore and off-shore analysts collaborate and work effectively toward managing ~35,000 yearly tickets.
- Utilized technology like **Excel, SAP, Tableau, Google Big Query** to manage and fulfill store needs to ultimately champion our front-line workers.
- Developed and improved new and existing **Excel VBA/Macros** to increase the team's ticket resolution speeds by 15%.
- Supported core IPR teams to achieve 98.8% in stock values, the highest since 2019's pandemic

### **The Home Depot Canada – Brampton, ON - *Department Supervisor***

- Lead and trained 100+ store associates with daily operational tasks.
- Reduced the number of workplace injuries by being an active member of the safety committee.
- Shrunk wait times for customers by becoming a licensed machine driver/trainer and saw operator.
- Maintained inventory (cycle counting, on hand adjustments, write offs) to ensure customer satisfaction and loyalty.

March 2017 –  
September 2018

### **Walmart – Orangeville, ON - *Sales Associate***

- Customer Service, Cashier
